

## Living Colors Information Packet 2018-2019

### Welcome to Living Colors Art Program!

As the Director of Visual Arts I am excited as we prepare for a new year at Arts in Action. We will be covering a wide range of media as we produce sculpture and other 3D projects. We will do paintings using pastels, water colors, Tempera paint, and markers. We will develop creative ways to use plaster of Paris, burlap, wire, and clay. We will also work together to create a 3D community project involving all the students. Students will design and create their own unique Polymer Clay Pens. Other projects include a Reverse Pastel Painting, Flexible "Glass" Sculpture, Pastel Fresco Secco, and a Quilted Foil project. I look forward to working with the students on their creative projects while giving all glory and honor to God.

Thank you, John Sandy
