

WELCOME SUPERSTAR!

We are very excited that you will be joining us for SuperStars dance. Superstars is a place where a child's individual ability rather than their disability will be the focus. Opportunities will be created for each child to excel according to their personal skills. Superstar's class will be a place where it will not only be ok to be yourself, but where it will be celebrated. By featuring and focusing on each child's strengths, the program will allow each Superstar participant to gain confidence and shine based on their unique gifts and talents.

While many children with disabilities deal with isolation and loneliness which often results from feeling different, *Superstars* will give kids a safe place to be different and to express their emotions and thoughts through the arts. Those with speech and language challenges who struggle to verbally express themselves will have the opportunity to do so through the arts. In this way the program is designed to be an outlet for children who are often frustrated about their inability to share what is on their minds.

We are going to have a wonderful time of fun, make new friends, learn through the arts, and celebrate that we are all God's Superstars. Please read the following information concerning the classes that you are going to participate in.
